SKILLS

- Critical Thinking
- Teamwork
- Leadership
- Time Management

TECHNICAL SKILLS

- C
- java
- python
- Node js
- HTML
- CSS
- javascript
- bootstrap
- mongodb
- express
- react

LANGUAGES

- english(intermediate)
- malayalam(fluent)

PROFILE

I am a B.Tech Computer Science Engineering student with a strong foundation in full stack web development and a deep passion for solving real-world problems through technology. My technical toolkit includes HTML, CSS, JavaScript, MERN, which I've applied in building projects like an online grocery store, food ordering platform, and personal portfolio website. Beyond coding, I aim to grow as a Full Stack Developer, blending clean code with user-focused design. I'm fluent in Malayalam, and english(intermediate) and I enjoy learning and collaborating on impactful tech solutions.

INTERNSHIP

MOTION CUT

december 2024-january 2025

web development intern

- Assisted in developing responsive and user-friendly web pages using HTML, CSS, and JavaScript.

CODEX TECHNO

ongoing

web development and designing

- Acquired hands-on experience in front-end technologies including HTML, CSS, JavaScript, and Bootstrap..

TCS ION

JUNE 2025-JULY 2025

career edge

- Developed essential employability skills including communication, presentation, and business etiquette.

TECHMAGHI

AUGUST 2024

AI with Python

- Understood the role of AI in real-world applications through hands-on coding exercises and mini projects.

TATA

DECEMBER 2024

cybersecurity analyst job simulation

- Conducted threat analysis and identified potential vulnerabilities in simulated enterprise environments.

CERTIFICATION

- **PENCIL BITS** JUNE 2024
generative AI
- **TECHMAGHI** AUGUST 2024
Artificial Intelligence with python
- **NXT WAVE** FEBRUARY 2024
generative AI model
- **TECHMAGHI** NOVEMBER 2024
datascience with python
- **LINUX FOUNDATION** JUNE 2025
introduction to node.js
- **DEVTOWN** JUNE 2025
MERN STACK
- **INFOSYS** JULY 2025
AI for all
- **HP LIFE** MAY 2025
AI for beginners
- **INTEL** JULY 2025
AI Aware
- **NASA GLOBAL CHALLENGE** OCT 2024
participate in nasa challenge
- **GREATSTACK** JUNE 2025
full stack project completion

EDUCATION

- **BACHELOR OF TECHNOLOGY** 2023-2027
 - computer science and engineering with artificial intelligence
 - Mar Baselios Christian Collage of Engineering and Technology, peermade
 - APJ Abdul Kalam Technological university

PROJECTS

■ Online Grocery & Food Products Website

Developed a responsive full-stack grocery eCommerce site with features like product listing, cart, and checkout using Node.js, Express, MongoDB, and Handlebars. Implemented user authentication, order management, and admin dashboard for product control and order tracking. Integrated dynamic quantity updates and price calculations without page reloads. Designed a clean, mobile-friendly UI using Bootstrap and custom CSS for an improved user experience.

■ Online Food Ordering Website

Built a full-stack food ordering platform with menu browsing, cart functionality, and order placement using Node.js, Express, MongoDB, and Handlebars. Added user login/signup system with secure session handling and order history tracking. Developed admin panel to manage food items, view orders, and update delivery status. Ensured responsive design and smooth user interactions with Bootstrap and custom JavaScript.

Online Course Learning Website

- Built a full-stack online course learning platform with secure authentication, role-based access control, and seamless course enrollment using Node.js, Express, MongoDB, and React. Implemented JWT-based user and admin authentication, enabling users to explore, enroll, and learn courses while providing admins full control over course management and platform operations. Developed a comprehensive admin dashboard to add, edit, and manage courses, categories, coupons, users, enrollments, reviews, and earnings.
